

Micromax

Micromax is an ionized micronutrient embedded in a near nano size amino acid and further encapsulated with biopolymers and Pufa.

Micromax is a blend that has been delicately handled to ensure the full benefit of a boost to the metabolism of high-performance ruminants, poultry, fish, prawn, agricultural crops, etc, in a safe naturally occurring manner.

Composition/Technical Specifications

Components	Composition (%) w/w
Manganese as Mn (mg/L)	78.3
Calcium as Ca (mg/L)	13200
Magnesium as Mg (mg/L)	6000
Selenium as Se (mg/L)	14.9
Potassium as K (mg/L)	3100
Iron as Fe (mg/L)	235.4
Boron as B (mg/L)	95.1
Molybdenum as Mo (mg/L)	65.3
Copper as Cu (mg/L)	73.6
Zinc as Zn (mg/L)	168.7
Cobalt as Co (mg/L)	25.4
Silica as SiO ₂ (mg/L)	450

Benefits

- Most effective in foliar spray and drip fertilization
- Helpful in cases of malabsorption conditions
- Cost-effective
- Improved levels for energy, water, and nutrient holding capacity
- Improved plant resistance against pests and diseases
- Improved plant health
- Reduces input cost through efficiency

Dosage & Methods of Application

Use MICROMAX (Colloidal Trace Minerals) from day 1 till flowering as soil drench/drip/sprinkle/foliar spray once in 15 days @ 5 ml/L water; 25 ml / Coconut Tree
